

Healthcare is changing.
Are you prepared to change with it?

IQ
spiro

A woman is shown in profile, using a blue and white spirometry device. She is holding the device to her mouth and breathing into it. The device has a blue handle and a white body with a blue top. A blue tube is attached to the bottom of the device. The background is dark and out of focus. There is a watermark in the background that reads "www.clinicalpulmonology.com" and "PULMONOLOGY".

In the United States a patient dies from COPD every four minutes. It's the fourth leading cause of death, with 24 million people estimated to have the disease and 12 million of those undiagnosed. Why not start changing these statistics today by utilizing office-based spirometry testing? The Midmark IQspiro™ offers you a simple, effective way to make testing and managing COPD, asthma and other pulmonary diseases a routine part of your patient care strategy.

Change the way you manage spirometry testing

IQ
spiro

The speed, accuracy and ease of use of the IQspiro™ Digital Spirometer make it a useful, cost-effective device for detecting and managing pulmonary disease. Even if testing for pulmonary disease isn't a routine part of your patient care strategy now, you'll be surprised at how efficient and economical it is to add it to your practice.

Midmark's IQspiro is lightweight, weighing only 9 ounces, making it easy to carry, use and store.

“I value spirometry as a key component in providing quality patient care. Recently, I purchased an EMR and wanted to find a spirometer that was compatible. The IQspiro™ was just what I was looking for! I can perform, trend and analyze patient tests from within the EMR, which saves time and increases efficiency in my practice.”

H. Aaron Song M.D., Allergy Associates of Orange County,
Yorba Linda, CA

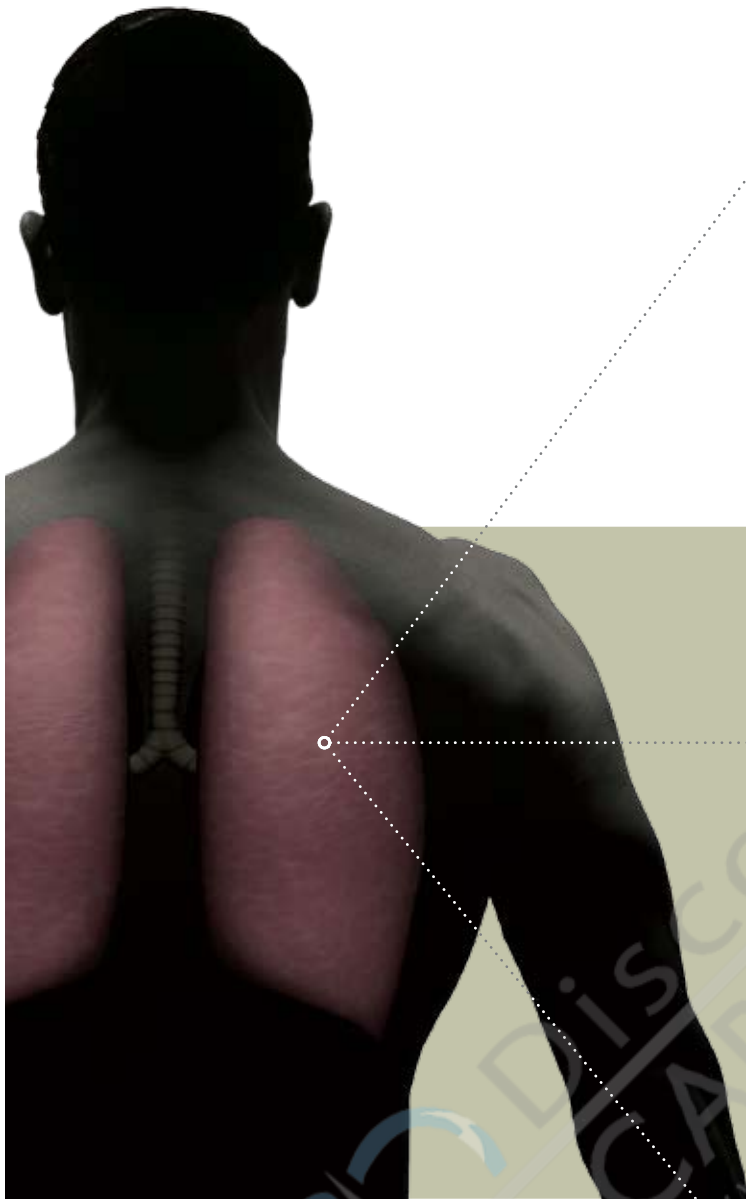

Innovative features to save you time

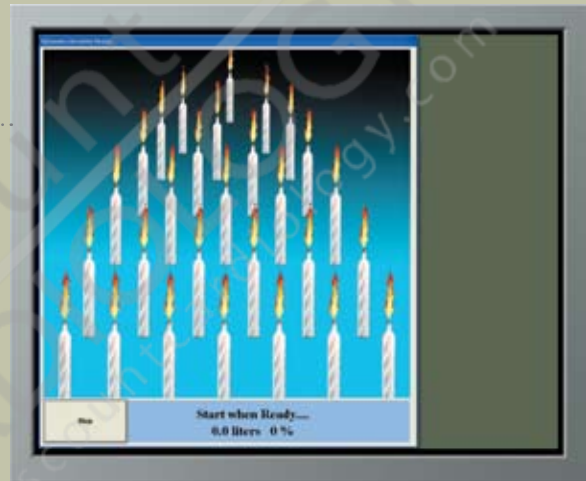

IQspiro Digital Spirometry System

The IQspiro Digital Spirometry System combines a digital spirometer with innovative software solutions that make it fast and easy to capture, interpret and retrieve patient information. Our digital spirometer also features correct patient positioning that can optimize testing and an eject lever that saves time and alleviates handling of used mouthpieces.

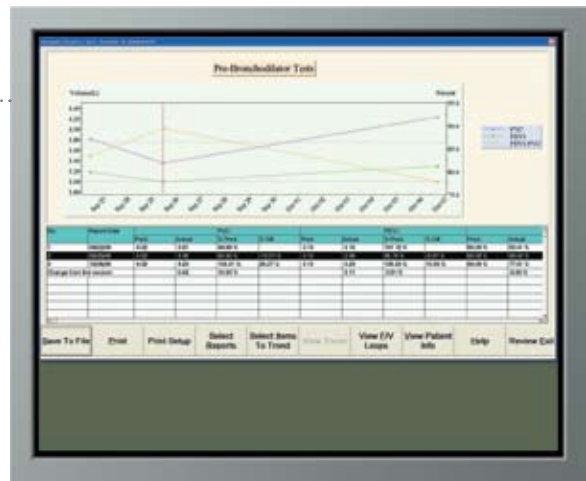

- View real-time Flow/Volume Loop and Volume/Time graphs with fully customizable parameters
- Pre- and post-bronchodilator testing with automatic interpretation
- New eject lever alleviates handling of used mouthpiece
- Accurate and precise; meets or exceeds ATS 2005 Standards
- Lightweight, portable design weighs only 9 ounces
- Correct, ergonomic patient testing orientation
- Easy grasp, new T-shaped handle design for patient support and stability during testing
- Improved mouthpiece stability and protection with new easy-latch door design
- Easy to print full page reports on standard paper
- Minimize cross contamination with use of disposable mouthpiece
- Two connectivity options: USB or serial

IQmanager™

Incentive Screen

Trending Report

IQmanager™ Software

A simple, cost effective way of capturing and storing patient test results right on your existing computer.

- View and analyze tests as patients perform them with large, real time, easy-to-read display
- Acquires, interprets and trends patient data for comprehensive view
- Patient coaching made easy with a choice of easy-to-see incentives on full screen
- Simple, one-click print and email options

- Save time by eliminating the need to re-enter patient data with easy-to-use database software

EHR/EMR Integration

Integrate test results and patient data directly into your EHR/EMR solution.

- Works with approximately 80 of today's top EHR/EMR solutions
- Diagnostic results automatically populate within the patient chart
- Compare tests with trending feature to view patient progress right from EHR/EMR

Make your practice more successful today with an IQ Digital Diagnostic System

Productivity gains and improvements in patient care are just a few of the benefits that can result from implementing the IQ Digital Diagnostic System. You'll have the ability to provide more streamlined diagnostic procedures for your patients and a more efficient workflow for your practice. Call us today and we'll put together a customized suite of solutions to help your practice move toward the future of healthcare.
