Mindray V Series

Winner of two prestigious gold awards for design excellence

“The Mindray [V Series] is going to be a real wake-up call for the big three monitor manufacturers (GE, Philips and Siemens)...the elegant industrial design, tenacious execution of every detail and very low cost results in a world-class solution that will command market share.”

– Sean Hägen, President, Director of Research & Synthesis, BlackHägen Design, Inc.

MDEA Award

Mindray V Series received Gold recognition in the prestigious 2011 Medical Device Excellence Award (MDEA) competition. The competition is a premier awards program for the medical technology community. Product candidates are evaluated on the basis of design and engineering features that improve healthcare delivery, change traditional medical practices, and provide enhanced benefits to patients.

IDEA Award

For 31 years, the International Design Excellence Awards® (IDEA) has recognized excellence in product design. 20 world-renowned design experts spent weeks evaluating thousands of international entries from 39 countries. In April, the jury convened for days of hands-on judging and evaluation, emerging with their choices for the coveted IDEA 2011 Gold, Silver, Bronze and Best in Show. The Mindray V Series received an IDEA Gold in the Medical & Scientific Products category.
