

Accutorr® CS

Accutorr CS integrates the Accutorr V vital signs monitor with your EMR of choice.

The Accutorr V is the latest in our long line of vital signs monitors. Based on the well-known Accutorr Plus design, this newest generation device brings with it more capability and more options just as you might expect them.

- Large, bright LEDs and a 3.4" color display delivers exceptional visibility
- Dedicated buttons for all primary functions provide incomparable ease-of-use
- Gentle, linear bleed technology maximizes patient comfort

The Accutorr CS patient charting system uses industry standard networking technologies, wireless or wired, to integrate the Accutorr V with an EMR.

- It routes, tracks and presents data in a secure, reliable format
- It is a Windows®-based client/server application that can run on any local area network, thereby providing ease-of-integration into your hospital infrastructure
- It can serve as a standalone charting system, with reporting capability, if your facility isn't yet linked to an EMR
