

OxiCard®

...the only truly portable pulse oximeter with dazzling graphic display and 24-hour recording capabilities.

OxiCard substantially eliminates the problems of low peripheral perfusion and most weak signal-to-noise situations, greatly extending the utility of pulse oximetry into low signal and noise intensive environments. For laptop or PC use, OxiCard slides into the PC Card adapter that is included.

- Comfortable, one-size-fits-all finger tip sensor included
- Print full-size, 24-hour oximetry reports
- Patented digital sensor with FFT technology

Real time test results are clearly displayed and stored.

Now you can bring your oximeter everywhere you go and perform testing in seconds.

Basic Specifications:
(visit QRS website for complete specifications)

Dimensions:	42mm x 36mm x 3.3mm
Weight:	68 grams (2.4 ounces)
Cable Length:	150 cm (5 feet)
SpO2 Accuracy:	± 2%
